

Swingin' Playsets FUN!

Wood and Vinyl Playsets

Made in the USA

About Us

Every vinyl playset from Swingin' Fun is constructed in our own shop, which my father founded in 1976, in the heart of Amish Country. With over 40 years of woodworking experience, each quality playset is specifically handcrafted with careful attention to detail and can be customized to fit your needs.

Our vinyl playsets are crafted with Genuine Cox Wolmanized® lumber for strength with a vinyl sleeve covering, and all stainless steel brackets, hooks, and hardware resulting in a playset that will last for generations!

So why not join our family today and bring some quality and fun into your backyard!

"The Modern Playset Choice"

- ★ Poly lumber is made from recycled milk jugs and has the appearance of wood.
- ★ Poly lumber will not splinter, rot or peel and it will never need to be painted or sealed.
- ★ Playsets made from poly lumber are assembled with stainless steel hardware.
- ★ Stains can be removed with warm soapy water and a soft bristle brush. A pressure washer is helpful if your playset is very dirty.
- ★ Since poly lumber is not affected by the elements, it can be left outdoors year round in any climate.
- ★ Your family will really enjoy these quality Playsets!

Lifetime pressure treated lumber inside sleeve.

About Us

Every wooden playset from Swingin' Fun is constructed in our own shop, which my father founded in 1976, in the heart of Amish Country. With over 40 years of woodworking experience, each quality playset is specifically handcrafted with careful attention to detail and can be customized to fit your needs.

Our wooden playsets are crafted with Genuine Cox Wolmanized® Lumber and come pre-stained and ready to weather the elements. We laminate all our posts and beams for added strength and then apply Woodwright Waterproof Sealer using a dip tank method to completely saturate every exposed surface. This process results in a superior product offering maximum protection against the elements.

So why not join our family today and bring some quality and fun into your backyard!
